

SECURE CLOUD HOSTING

CACI's Secure Cloud Hosting service allows us to host and seamlessly manage your applications cost-effectively and securely from our UK based data centre.

WHAT DO WE OFFER?

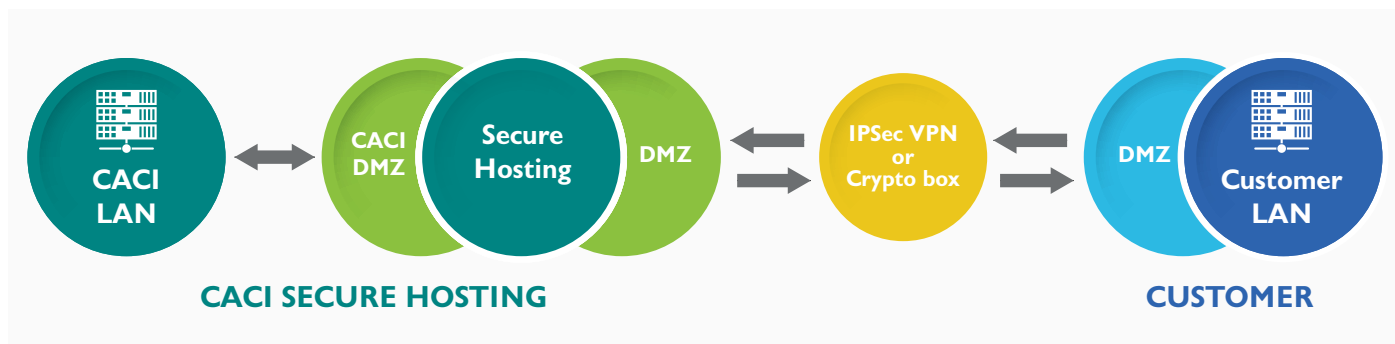

-  Secure PSN and N3 connectivity
-  Managed infrastructure, automatically scaled to demand
-  Bespoke services to match your needs
-  UK based data centre
-  Comprehensive support – No hidden costs

HOW DO YOU BENEFIT?

-  Support a 'Digital First' strategy
-  Rapid procurement and deployment
-  No pricey IT outsource provider needed
-  No need for DBA resources
-  Fully hosted by the service provider you already trust

OUR SECURITY CREDENTIALS

ISO 27001 and 9001 certification | PSN compliance and connectivity | Cyber Essentials certification | All staff certified to SECRET classification
