

CHILDREN'S CENTRE MANAGER

The Children's Centre Manager (CCM) records and reports on the attendance of under-5s and their families at a local authority's children's centres, and on any services they engage with.

We understand how every local authority has a specific set of reporting requirements, and so we've built the system in such a way as to provide the flexibility you need to report at any time, and against any set of requirements and criteria for Children's Centre's, Sure Start, Extended Schools and other community based settings.

FEATURES
