

The Big Table of Information

Processing activity	What personal data do we process?	Where do we get your personal data from?	Who do we share your personal data with?	What is the legal basis for processing your personal data?
Processing of your name and address and other personal data in relation to the data services we provide to our clients and partners. Buying in/licensing in lists of personal data which we use to provide data services to our clients and partners. Also, we use the personal data that we buy in/license in to create models that can either be at an individual level or aggregated level (e.g. at a postcode level). To create modelled/predicted data we process personal data along with non-personal data, using various statistical methods. Please note that the modelled/predicted data is not real personal data (for examples see section entitled 'What do we do with your Personal Data'). The personal data (including the modelled/predicted data) is sold, licenced or used by us to provide our data services to our clients and partners. CACI creates segments, categories and profiles using your personal data. We do not make any automated decisions relating to your profiled data.	Your name, address, and date of birth. Plus some other attributes, if you have provided it, for example whether you have children in the household. Your name, address, and date of birth. Plus some other attributes, if you have provided it, for example whether you have children in the household. Your name, address, and date of birth Your name, address, email address and date of birth.
