

Government Cyber Resilience Pledge Declaration - CACI Ltd

Following the government's ministerial letter of 13 October 2025, CACI Ltd hereby pledge to undertake the following actions, as outlined in the letter:

1. Make cyber a Board responsibility:

- a. Implement all actions within the [Cyber Governance Code of Practice](#).
- b. Ensure all board members undertake the [NCSC's Cyber Governance Training](#) within three months and then on an annual basis.

2. Sign up to Early Warning:

- a. Register for the [Early Warning service](#) within one month of signing the pledge

3. Require Cyber Essentials across supply chains:

- a. Register to the [Cyber Essentials Supplier Check Tool](#) within two months of signing the pledge.
- b. Ensure that a comprehensive audit of Cyber Essentials coverage has been conducted across the supply chain and that it is presented to and discussed by the Board as part of regular governance reporting
- c. Apply a riskbased approach to the use of Cyber Essentials certification across the supply chain (which may include mandating certification for certain suppliers). Where Cyber Essentials is not required, decisions will be aligned with the organisation's risk appetite and appropriate assurance obtained through alternative means

In addition to the above three actions, we commit to take the following steps:

- **Encourage these actions within our own supply chains** - we will strive to engage with our suppliers to understand and better manage the cyber security risks that they are exposed to through their supply chain and encourage adoption of the above measures.
- **Publish the signed pledge declaration on our website** - within 2 months, we will publish the signed pledge declaration on our company website. Additionally, we will publish an annual public update, either in our annual report or on our company website, on the steps taken to deliver against the pledge.

While the pledge is voluntary, we commit to take positive and meaningful steps to fully implement the three actions. If our company has been unable to implement any of the pledge actions, we will promptly provide DSIT with relevant feedback as to why.

Signed,

Tracy Weir
